## PROFILE

Bachelor in Informatics from the University of Costa Rica with a solid academic background in programming, databases and project management. As well as experience in methodologies and tools such as Scrum, Scrumban, Jira and Trello. Ability to work in a team, solve problems and adapt quickly to new situations.

## WORK EXPERIENCE

**University of Costa Rica - Investigation Project FUNREAD** **January 2023 - December 2023**

*Team leader and web developer Intern*

As an intern I worked with technologies such as Jira, React, Bootstrap, JavaScript, Python and intelligent applications, using the Scrumban methodology.

## EDUCATION

**University of Costa Rica** **2018 - 2023**

Bachelor degree in Business Computer Science.

**Technical Professional College of Oreamuno** **2015 - 2017**

Medium Technician in Software Development Informatics.

## MAJOR PROJECTS

**Powerfit-Manager | TCU UCR** **December 2021 - February 2022**

I developed a web application to manage the administrative information of PowerFit gym, using React for the front-end, NodeJS for the back-end and MySQL for the database.
