PROJECTS

Hotel Reservations | UCR Project — 03/2023 - 06/2023

I developed a web application to manage information and room booking for a hotel, using Angular for the front-end , ASP.NET Core Web Api for back-end and Postgresql for the database.

Powerfit-Manager | TCU UCR — 12/2021- 02/2022

I developed a web application to manage the administrative information of PowerFit gym, using React for the front-end, NodeJS for the back-end and MySQL for the database.

Digital Health Record | UCR Project — 07/2021

I developed a platform to manage a digital health record, using Java for the mobile application, MySQL for database, ASP.NET Core MVC for Front-end and API.
